

Renzulli Learning User Guide Teacher's Site

LOGGING IN

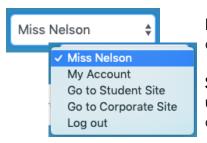

1. Type www.renzullilearning.com into the address bar of your internet browser and add this site as one of your bookmarks

- 2. Login Options pick one:
 - a. Select Teacher from the drop-down menu and login with your given Renzulli Learning username and password.
 - b. If you school has access, you can use the Clever or ClassLink Login buttons.
 - c. If your username is a Google account, you can use the Google Sign-in button.
 - d. If your school has an account but you are not registered, locate and click Add New User. You will need your school's Teacher Access Code. Click on the name of your school in the Select Your School box.
 - * Use the Control key (Command on a Mac) to select more than one school.
 - e. If you are registered but do not know your password, use Forgot Password and you will receive an email with instructions.
- 3. If it is your first login, review the Renzulli Learning System End-User License Agreement and click the circle next to *I* Accept to continue the registration process.
- 4. Enter the information requested. An "*" indicates that the information is required.
 - * If you teach more than one grade, select the highest grade you teach
- 5. Verify that your email address is correct it's used by the system to automatically retrieve your password if needed.
- 6. If you are creating your username, we recommend using your email address as a unique identifier in the global Renzulli Learning System.
- 7. Review the information you have entered and confirm that it is correct.
- 8. Click Submit.

Need to update your information? Click your name at the upper right after logging in as a teacher and select My Account.

Switch Sites: Easily toggle between Teacher and Student views by using the drop-down menu with your name on it at the upper right, as well as to Manager for School Site and District Managers.

DASHBOARD

Enrichment for All Students - A Free On-Demand Course for You:

Access training in Renzulli Methodologies as well as step-by-step directions for Renzulli Learning with this free course. Click the big purple button to get started!

Getting Started in Five Easy Steps!

Get started right away with simple instructions. If your students were pre-registered by template or through a single-sign-on service, you can skip right over step 4.

Search:

Quick and easy search: Type a topic, click Go, and Renzulli will locate matching resources.

Favorites:

A few of your own saved favorite Renzulli web resources will appear on your dashboard in this box.

Featured Activity:

Our staff has curated all our activities and selected their favorites. Every time the page is refreshed, one of these activities is featured on the dashboard to help you become familiar with Renzulli's Best.

Cebeci Test of Creativity

Click to learn more about assessing creativity in your classroom!

Renzulli Learning Home Edition

All of our active Renzulli Learning teachers can use the Home Edition at no additional cost for their own family. Click to activate and access your free subscription!

Cebeci Test of Creativity

We are pleased to offer you a preview of the Cebeci Test of Creativity.

Free Renzulli Home Edition

We are pleased to offer you a free subscription to the Renzulli Learning Home Edition to use with your family.

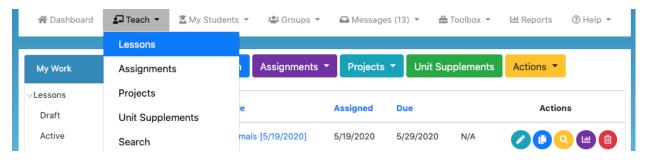

TEACH TAB

TEACH: LESSONS

Your Lessons Dashboard can be used to create new as well as manage existing and archived Lessons, Assignments, Projects, and Unit Supplements.

What's the difference?

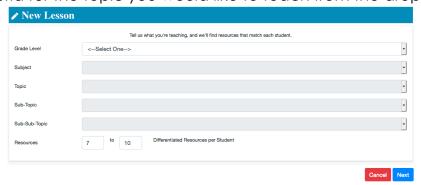

- <u>Lessons</u>: Take advantage of the Differentiation Engine Tell us what you're teaching, and we'll find resources that match each Student's Profile results.
- Assignments: Customize one of our Renzulli Assignment Templates, available for all grades and subjects, or start from scratch, providing selected resources from the Enrichment Database and step-by-step directions for your students.
- <u>Projects</u>: Students have edit access to Projects to truly individualize, bringing in choice and voice to their Project Based Learning experiences. Designing from scratch or utilizing a Super Starter Project, Students can launch a Project from the Student Site or Teachers can assign them directly to students.
- <u>Unit Supplements</u>: Arranged by subject and grade, Unit Supplements offer recommended resources available for specified topics to help you enhance and supplement your curriculum.

New Lesson

Provide differentiated resources based on curriculum topics and Students' Profile results.

- To create a new differentiated Lesson, click New Lesson from the Teach: Lessons Dashboard.
 - 2. Select the criteria for the topic you would like to teach from the drop-down menus.

By default, each student will receive 7-10 resources that match his or her Renzulli learning profile (preferred interests, learning styles, and expression styles) — thus making them "Differentiated Resources." The minimum and maximum resource numbers can be changed using the text boxes, to as few as 1 or as many as 20 resources. In this example, we used 15 to 20 resources for each student. Click "Next."

4. A message displays the total number of resources found for all students, for this topic:

60 Differentiated Resources for Improper Fractions/Mixed Numbers

5. Select Customize to review the resources and assign questions, or you can select Assign Now to skip to Step 10.

Customize ~ After Step 5 in New Lesson

6. Search and filter web resources from three left menu accordions:

- 7. Require or exclude resources for all students by selecting Require or Exclude for each individual resource:
 - ...or process multiple resources by clicking their check boxes and then selecting Require Selected or Exclude Selected:

- 8. Click Next to add Assessment Questions if you wish:
 - No Questions
 - KWL
 - Choose from a list
 - Write your own
- 9. Click Next again to continue with the Finalize directions under Assign Now, Step 10.

Assign Now ~ After Step 5 in New Lesson

10. Finalize creating your lesson with:

- Lesson name (Click the Pencil next to the title.)
- Directions for Students
- Start & end dates
- File attachments
- Student selections can filter by Groups

11. Finishina:

- You can Preview to see how it looks
- Save for later in your Lessons Drafts
- Click Assign and you're done! You can Review your completed Lesson or click Done.

Your Lesson Appears on the Teach Tab

You will be able to see your created lessons on the Teach: Lessons Dashboard under My Work, either as a Draft, Active, or Archives.

Assignments

Students receive the same resources and specific, step-by-step instructions.

Create a New Assignment ~ Customize from a Template or Build from Scratch

Start with an Assignment Template:

- 1. On the Teach: Lessons Dashboard, click the Assignments button and select New Assignment from Template.
- 2. In the Quick Template Lookup drop-down menu, select a template.

Select a Grade: <--Select a Grade --> \$

Teacher Tip: To narrow the search, select a subject and grade level filter. Then select a template to view from the Templates drop-down menu.

- 3. Scroll down to preview the template.
- 4. If you want to use it, click Use This Template.
- 5. You are taken to the Assignment, where you may edit as necessary using the steps from Create a New Assignment from Scratch below, starting at Step 1 Name It, or use it as is and skip to Step 5, Assign It.

Teacher Tip: Do not Share templates a second time unless significant changes have been made and are to be shared for other teachers. Rename the template appropriately, so duplicates do not appear in the template list.

Start an Assignment from Scratch:

On the Teach: Lessons Dashboard, click the Assignments button and select New Assignment.

1. Name It: Enter an Assignment Name. Click Save and Continue.

Note: If you have defined at least one Collaborative Group, an additional option will be on the first page. To make the assignment collaborative, where multiple students can work on it together and coordinate their work, select Yes for "Will this be a Collaborative Assignment?"

 Describe It: Select the subject areas and grade levels and write a description of the assignment. Click Save and Continue.

Subject Area: (Sele	ct all subject areas t	hat apply)		
Language Arts	✓ Science	Art	Phys Ed	Technology Other
Math	Social Studies	Music	Foreign language	
Grade Levels: (Sele	ect all grades that ap	ply)		
K 1 2	3 4 4	5 6	7 8 9	10 11 12

Quick Template Lookup:

Select a Subject < --Select a Subj

Templates:

<--Select a Te

Language Arts Math

Social Studies Art Music Phys Ed

Foreign language Technology

Science

3. <u>Locate/Attach Resources</u>: Click Search Activities to search for resources to add to the Assignment. Once an activity is located, click Attach to Assignment/Project and then click Attach to Assignment: (Assignment Name). Select one of the following options:

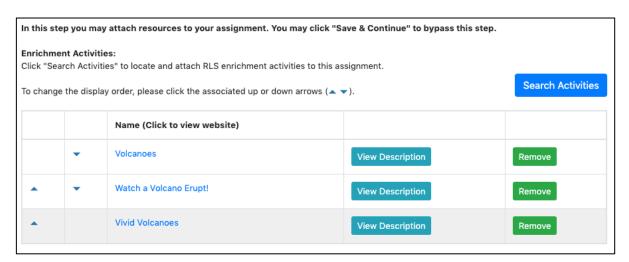

Save and Return to Assignment/Project — Saves the activity to the Assignment and returns to continue the process of building the remainder of the Assignment.

Save and Return to Search Results — Saves the activity to the Assignment and allows the user to return to the list of search results to add additional resources to the Assignment.

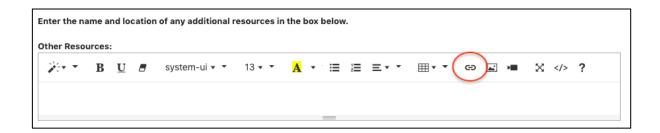

Return to Search Results — Cancels the function to add the activity to the Assignment and allows the user to return to the search results to browse additional items.

- Click the up and down arrows in the activity list to change the order of the activities.
- Click "Upload Files" to browse for and upload a file if necessary.

Note: The maximum file size is 5 MB per file. Helpful assignment uploads may include offline resources, rubrics, worksheets, graphic organizers, checklists, etc.

• List additional resources in the Other Resources box. These may include URLs of websites not in the Renzulli database (using the hyperlink icon circled below), recommended reading lists, materials, etc. Click Save and Continue.

4. <u>Provide Student Directions</u>: Be clear and specific, including what you expect students to do with each assigned resource. Click Save and Continue.

- 5. <u>Assign It</u>: Select a Due Date if desired. You can filter the list of students by Grade, School, or Groups. Check the names of specific students or click Check All. Click Save and Continue.
- 6. Notes to Students: Enter any notes as needed to students. Click Save and Continue.
- 7. **Review It**: Review the assignment. Click *Edit* next to a section to make additional changes. Click *Save and Continue* when ready.

Teacher Tip: To stage an assignment to allow student access later, leave the Assignment Status set to Under Construction. When ready to assign to students, follow the directions for Assign the Template without Changes.

8. **Submit It**: Change the Assignment Status from Under Construction to Send to Students and click Go.

9. **Share It**: If you would like to Share this Assignment as a Template for all Teachers in your School (or District, depending on your District settings), enter the name for the Template and click *Share* as a *Template*. Remember not to duplicate the name of a current Template so as not to cause confusion.

Note: The school/district may establish a standardized naming protocol for Assignment Templates. Templates are listed alphabetically, and the creator's name will appear after the Template name.

View and Edit Your Templates

Use this feature to manage your own Assignment Templates previously created and published.

- 1. On the Teach: Lessons Dashboard, click the Assignments button and select Your Templates.
- 2. You can Edit a Template by clicking on it and completing necessary edits.
- 3. To remove an Assignment from the Quick Template Lookup list, click Unpublish. You can edit it as needed and then click Share as Template when you are ready to Share again.
- 4. You can Delete one of your Templates by clicking Delete.

Assignment Name	Date Last Viewed	Status	Delete
Using Critical Thinking with Fractions and Geometry 2	10/16/2019	Share as Template	Delete
Reviewing Multiplication with Arithmagon Puzzles	10/18/2019	Unpublish	Delete
The Comedic Lens: Analyzing a Society through Its Use of Comedy 2	2/20/2019	Unpublish	Delete

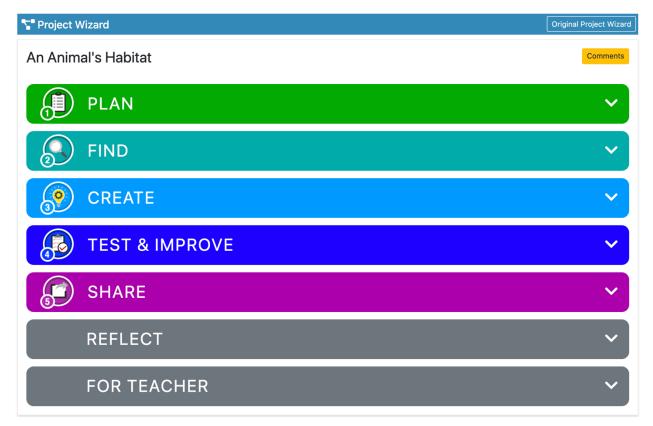

Projects

Offer Project Based Learning experiences that are open-ended and student driven. Students have edit access to the Project Wizard, even when assigned by the Teacher. Build from scratch or Customize from a Super Starter Project Template.

Create a New Project:

- 1. On the Teach: Lessons Dashboard, click the *Projects* button and select *New Project*.
- 2. Enter a Project name. Click Save and go to Wizard.
- 3. The Project steps are exactly as you would see them on the Student Site for Projects. Fill out each one with as much detail as you wish to provide students. You may offer choices along the way, for example suggest multiple Products for Students to select from.

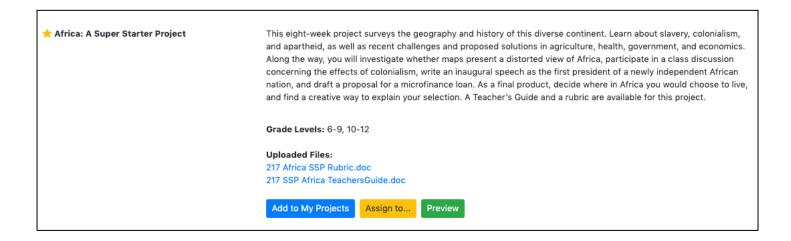

- 4. You can view Students' Notes under Find as well as view and respond to Comments using the button in the upper-right.
- 5. Under For Teacher, Teachers can add standards associated with this Project, and when viewing a live Student's Project, can access the Student's Self-Assessment as well as Evaluate the Project using the Renzulli & Reis Student Product Assessment Form (SPAF).

Use a Super Starter Project ~ Start from a Template

- 1. On the Teach: Lessons Dashboard, click the Projects button and select Super Starter Projects.
- Projects New Project Super Starter Projects
- 2. Scroll down the list of projects or select a filter to narrow the results.
- 3. Click Preview to view project details.
- 4. Click Add to your Project List to work with the Project.
- 5. You are taken to the Project, which you may edit as necessary using the steps as identified above.

View and Manage Lessons, Assignments, or Projects

- 1. Navigate to the Teach: Lessons Dashboard.
- 2. In the My Work box at left, under Lessons, Assignments, or Projects, select a folder:

Draft — Items not yet sent to students.

Active — Items sent to students.

Archived — Items filed for later use.

- 3. Click the Lesson, Assignment, or Project name to view details and edit any editable fields. You can also assign the Lesson, Assignment, or Project to additional students.
- 4. Click the icon to: Edit, Copy, Preview, View Report, or Delete.

Teacher Tip: To delete multiple items from one folder, click their check boxes, click the Actions button, and select Delete Checked Lessons.

Unit Supplements

Unit Supplements are designed as a teacher resource to supplement and enhance, but not replace, a lesson plan or unit of study. Each Unit Supplement includes Introduction resources, Thinking Skills, Research suggestions and Project Ideas, as well as Example Keywords and Differentiation keys.

- Integrate activities from a Unit Supplement into classroom lessons where timely and appropriate.
- Unit Supplements are most effective when spread over multiple days or class periods, instead of during one computer session.
- Unit supplements can be used in multiple instructional settings (i.e. whole group, small group, individually).
- Use to introduce, review, reinforce, and support curriculum units of study.

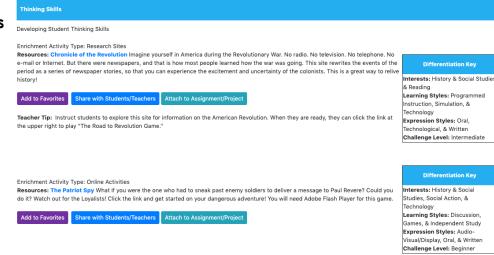

Use a Unit Supplement

- 1. On the Teach: Lessons Dashboard, click the Unit Supplements button.
- 2. To narrow the Unit Supplement list by a specific grade range, choose a Grade Range from the drop-down menu and click Submit.
- 3. Select a Subject Area tab to browse the Unit Supplements for that subject area.
- 4. Click the View icon for details of a specific Unit Supplement. Click the title of the activity to open the resource. If you wish to locate the activity again easily, click Add to Favorites. Click Share with Students/Teachers to send an activity to your students or colleagues. The activity will appear in their Renzulli Inbox.

Helpful Unit Supplement Features
Differentiation Keys — Details
Interest Areas, Learning Styles,
Expression Styles and Challenge
Levels of the featured activity.

Example Keywords — Have students conduct their own searches for resources on the unit topic.

Teacher Tip: Use Introduction activities in a whole class setting with a projector or Interactive whiteboard. Use the Thinking Skills, Research, and Project Ideas in small *groups* or individually with students. Use projects to provide additional rigor and challenge.

TEACH: SEARCH

Discover multiple ways to search the Renzulli Learning Enrichment Database for Resources.

Search

- 1. On the Teach tab, click Search.
- 2. Enter a keyword(s) in the Search Resources field.
- 3. As needed, select Grade, Ability, Interest Areas, Learning Styles, Expression Styles, and Resource Types.
- 4. Click Search to view results.
- 5. Click the Actions button to save your Search, or to attach specific Resources to a Lesson, Assignment, or Project.
- 6. Try putting quotation marks around search terms to enable an exact phrase search.
- 7. Click on a Resource to view the details. Here you can access online Resources, Report resource issues, mark it as a Favorite, and Share a Resource with Students and Teachers.

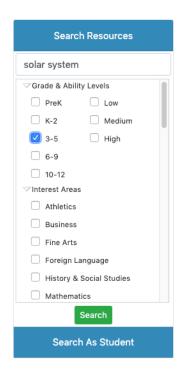

Search as a Student:

You can search as any of your students who have already completed his or her Renzulli profile.

- 1. On the Teach: Search page, click Search As Student at lower left.
- 2. Enter keyword(s) and select a student.
- 3. Click Search to view results.
- 4. You have the same options as above.

Search by Standards

- 1. On the Teach tab, click Search by Standards.
- 2. From the drop-down menu, select a state or Common Core Standards.
- 3. Select a Subject, then Grade, then Standard.
- 4. Click plus signs to expand the list and select more precisely.
- 5. Click the check boxes of standards for which you wish to find resources.
- 6. Click Search to view results.
- 7. Click an Enrichment Category link to go directly to activities in that Category.
- 8. Click View Activity to see the resource description and analysis, as well as a link and the ability to Report it, Add to My Favorites, Share with Students/Teachers. Any standards correlated to the activity will also be listed at the bottom.
- 9. Click Attach to Assignment/Project to quickly add to an existing or start a new Assignment/Project.

Saved Searches

After search results are displayed, you can use the Actions button to Save this Search.

To locate saved searches:

- 1. On the Teach tab, click Saved Searches.
- 2. Click the title in the Search Name column to repeat the search.

Favorites

Items that are Favorites can be viewed and organized here. Renzulli Favorites are associated with your login, not with a particular browser or computer.

- 1. On the Teach tab, click Favorites.
- 2. Click a title to view the Resource.
 - To create a new folder:

Double-click Create New Folder, name it, and press the Enter key. A new folder will appear in your list.

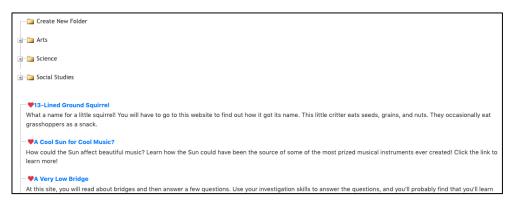

• To create a new subfolder:

Right-click one of your existing folders and select *Create New Folder*. A subfolder titled *New Folder* appears – double-click it, name it, and press the Enter key.

- To move favorites into a folder:
 - Click and drag an activity to the correct folder or sub-folder and drop it.
- To delete a folder:

Right-click an existing folder and select Delete. Note: Sub-folders are also deleted, and activities are moved back to the general Favorites list.

- To edit the name of a folder:
 - Double-click an existing folder. Type the new name.
- **To manage favorites:** Right-click an activity to view details, copy it (so that it can be placed in multiple folders), Delete it, Share it, or Attach it to an Assignment or Project.

Social Emotional Needs

We have begun to tag and categorize our resources for social-emotional learning. Please check back in this section often for new resources!

MY STUDENTS TAB

MY STUDENTS: MY ROSTER

View students already affiliated with you as a teacher.

- 1. Click a name to view details concerning a student.
- 2. Filter student names using the *Show* drop-down menu, to view a specific School, Grade, or Group.
- 3. Use the Navigate To drop-down menu choices to navigate to any section of the Students' Total Talent Portfolio, such as:
 - Access and edit Registration Information
 - Print Profiles in a variety of languages
 - Access student Profiler Questionnaires, Login History and Activity Log, Enrichment Activities
 - Check Students' work on Assignments, Projects, and Lessons
 - View Students' Self-Assessments on Enrichment Activities
 - View and respond to Students' Journal entries

MY STUDENTS: LIVE STUDENT ACTIVITY TICKER

- 1. You will see current and historical activity for your Students, most recent activity first.
- 2. Filter by Activity Type, Student, or Date.
- 3. Print a page of data.
- 4. To view more detail about an activity, click on the specific activity.

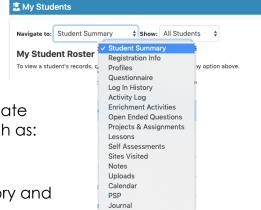

Teacher Tip: Display this on your whiteboard while Students are working - they love seeing their name pop-up!

MY STUDENTS: MANAGE STUDENTS

Register a Student:

Students can be mass registered by sending a completed Student Upload Template to Renzulli Learning. You can also manually register students on the Teacher Site. Alternatively, you can use the Student Access Code function to have students self-register. If your school uses a Single Sign On (SSO) service (such as Clever or ClassLink), your student data will be managed by the SSO.

- 1. To manually register a Student(s), select Register Students.
- 2. Select the School, then enter the Student's registration information
 - Suggestion: Use email address as both Student ID and Username
 - Click Select Additional Teachers if the student should be assigned to additional teachers
 - Clicking "Quit" will cancel only the current entry.
- 3. Click Finish to complete and print or Next to complete and add another student.

To View and Print Students' registration information, click View Log:

- 1. Select a date range.
- 2. If needed, select the box for Show All Affiliated Students instead of just the ones you have registered by hand.
- 3. Select students or click Check All and Next.
- 4. Review your list and click Create Report.
- 5. You can now print out individual pages for Students with their registration information and directions for logging in.

Update Student Roster

- 1. Click Update Student Roster.
- 2. Click the Show drop-down menu to filter by Grade or School.
- 3. Check applicable students and click Submit at the bottom of the page.

Note: To view your student roster, go to My Students: My Roster

Usernames and Passwords

- View and Print a list of your Students with Usernames and Passwords.
- Filter by Grade, School, and Group as needed.

Bypass Profiler:

- By default, PK-1 Students will be set to Yes automatically Bypass the Profiler, which puts them right into the system with all ageappropriate resources.
- If you want any PK-1 Students to take the Profiler, select No and click Submit at the bottom.
- You can set them all to Yes or No using the buttons at the top of the list of names.

Reset Student Profiles

- If you wish to start Students over with a fresh start, so you can set them to Yes, Reset the Profiler. Click *Submit* at the bottom.
- Alternatively, you can invite students to walk through their Profile "as is" and reconsider their responses.

Teacher Tip: This is a common practice at the beginning of a new school year. To view previous Profiles, select Profile History.

Bypass Profiler

Yes No

MY STUDENTS: STUDENT ACCESS CODE

Your students can self-register themselves with Student Access Code. Provide this Access Code for students to enter under the New User Link, and then teachers accept students' request to be in the class.

Sign Up Requests

Delete Selected Messages

GROUPS TAB

LOCAL GROUPS

Groups are helpful for organizing students by class, grade, subject, learning style ... there are many possibilities! *Groups* provides flexible grouping options to enable instructional differentiation on the fly! Design *Custom Groups* according to your schedule or let Renzulli Learning create groups based on Students' Profile information!

Create a Custom Group

- 1. On the My Students tab, click Manage Groups.
- 2. Click Create New Group.
- 3. Select Design a Custom Group from the drop-down menu.
- 4. Name your Group.
- 5. Choose if this Group is:
 - Basic Only you can see the group
 - **Collaborative** Students will get a shared workspace and message board. You will be directed to the Group Overview page for additional set up.

Note: For more information on Collaborative Groups, hover over "What is this?"

- 6. Use the Show drop-down menu to filter your Student list:
 - All Students Displays all Students on the Teacher's class roster
 - All Students Not in a Group Displays all Students who do not belong to a group
 - Grade and School Displays by selected grade and school

- 7. Check the names of the students that you would like included in the Group or select Check All to include all the Students displayed.
- 8. Click Submit at the bottom of the screen.

Create a Group by Profiler Criteria: Interest Areas, Learning Styles, or Expression Styles

- 1. On the My Students tab, click Manage Groups.
- 2. Click Create New Group.
- 3. Select one of the following from the drop-down menu:
 - Group by Interest Areas Groups students by a specific Interest Area based on their individual Renzulli profile results.
 - **Group by Learning Styles** Groups students by a specific Learning Style based on their individual Renzulli profile results.
 - **Group by Expression Styles** Groups students by a specific Expression Style based on their individual Renzulli profile results.
- 4. Select ONE Interest Area, Learning Style, or Expression Style.
- 5. Select one of the following from the drop-down menu:
 - **First Choice** Shows only Students with that criteria as their first choice.
 - **First or Second Choice** Shows only Students with that criteria as their first or second choice.
 - **First, Second, or Third Choice** Shows only Students with that criteria as one of their top three choices.

- 6. Click View Students.
- 7. Name your Group.
- 8. Choose if this Group is:
 - Basic Only you can see the group
 - Collaborative Students will get a shared work- space and message board. You will be directed to the Group Overview page for additional set up.

Note: For more information on Collaborative Groups hover over "What is this?"

- 9. Check the names of the students that you would like included in the Group or select Check All to include all the Students displayed.
- 10. Click Submit at the bottom of the screen.
- 11. Your Groups will be displayed on the next page. Click View next to a group to view and edit Group Details.

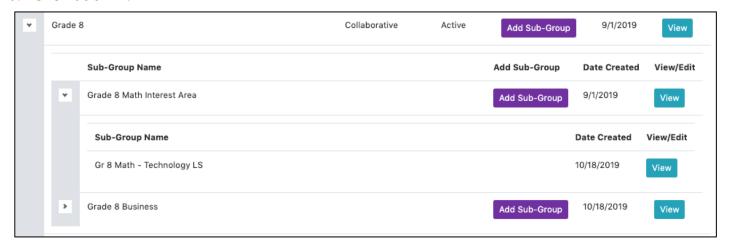

Create a Sub-Group

- 1. On the My Students tab, click Manage Groups.
- 2. In your Manage Groups list, click Add Sub-Group next to the Group you wish to create it under.
- 3. Define your criteria. The choices are the same as in the Create a Group section above, for either Custom Groups or define groups by Profiler criteria.
- 4. Name your Group.
- 5. Select Students.

6. Click Submit.

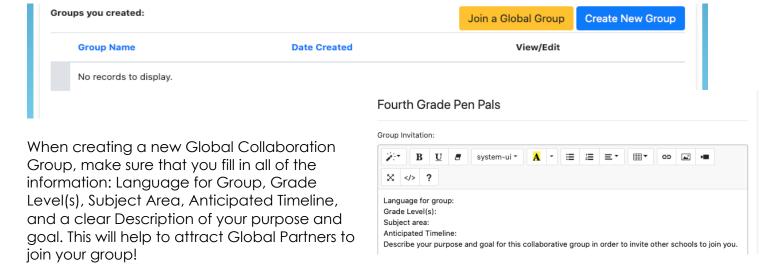

To view Sub-Groups, click the little arrow next to a Group name in your Manage Groups list.

Teacher Tip: You may add a Sub-Group within a Sub-Group using the same procedure. For example, you can create a Group for 8th graders, then a Sub-Group for the 8th graders who are interested in Math, and then those that have a Technology Learning Style.

GLOBAL COLLABORATION

Global Collaboration enables teachers to connect their students both locally, across the district, and globally to engage students in collaborative Assignments and Projects with a shared message board and workspace.

Under Global Collaboration - Manage Groups, select Join a Global Group to view open Global Groups currently looking for partners. Send Request to an open Global Group that you are interested in OR click Create New Group to start designing your own!

MESSAGES TAB

Note: The Renzulli Inbox is used to manage internal messages between Students and Teachers or between Teachers.

View Messages

- 1. Click Inbox.
- 2. Current, incoming messages are displayed. You can select Flagged, Archived, Sent and All to view additional messages.
- 3. To read a message, click the title.

Manage Messages

- 1. In the Inbox, select a message(s) to manage. You can also use the links to select All messages, all Read messages, and so on.
- 2. In the Select Action drop-down menu, select one of the following:

Mark as Read — Changes the status of the message(s) to Read.

Mark as Unread — Changes the status of the message(s) to Unread.

Add Flag — Adds a Flag to message(s).

Remove Flag — Removes a previously added flag.

Archive — Moves messages to the Archive folder. Messages will no longer appear in the main view of the inbox.

Delete — Deletes selected messages.

- 3. Click Go to complete the Action.
- 4. Use the Sort By drop-down menu to arrange messages by date or by sender name.

Send a Message

- 1. On the Inbox tab, click Send a Message. Enter a Subject and type your Message.
- 2. Use the "Usertype" filter to narrow the list of recipients by Students or Teachers. To narrow the list to a specific group, select the group name from the drop-down menu.
- 3. Select the name(s) of the message recipient(s) or click Check All.
- 4. Click Submit to send the message.

TOOLBOX TAB

Top Rated Activities

- 1. On the Toolbox tab, click Top-Rated Student Activities.
- 2. Select Level: Elementary, Middle, High School, or Specialties.
- 3. Select Title (subject areas), then if available: Topic, Subtopic to narrow the list.
- 4. To view an activity, click its name from the alphabetical list below.
- 5. You have several available options:
 - Add to Favorites to add an activity to your Renzulli Favorites List.
 - Share with Students/Teachers to share an activity.
 - Add to Assignment/Project to add an activity to an existing or newly created Assignment or Project.

Calendar

- 1. On the Toolbox tab, click Calendar.
- 2. Click Add Event.
- 3. Enter the Event Title, Date, Time, and Event Description.
- 4. Assign the event to yourself (your calendar) or to selected students (their calendars).
- 5. Click Submit.
- 6. To view Events, click the Event and it will appear below the Calendar. You can view all Events for the month by clicking the link above the Calendar.

Notes

These are your own Notes, not Students' Notes.

- 1. On the Toolbox tab, click Notes.
- 2. Click Add Note to begin a note.
- 3. Enter the Subject (Title) and text for the Note.
- 4. Click Submit.
- 5. Your Notes list is arranged chronologically and from here you can click the icons to Edit or Remove (delete) a Note.

Upload Files

- 1. On the Toolbox tab, click Upload.
- 2. Click the Upload button.
- 3. Check the box if the file already exists in your Uploads list and you wish to replace it.
- 4. Enter a Title for the file you wish to upload.
- 5. Click Choose File, locate a file on your computer, and click the file name.
- 6. Click Open.
- 7. Enter a description if desired.
- 8. Click "Submit".

PSP

The Renzulli Personal Success Plan (PSP) was designed to help young people, especially middle school students, to think critically about their interests, heroes and career aspirations – and then create tangible goals and plans for achieving those dreams.

- 1. On the Toolbox tab, click "PSP".
- 2. Navigate through the sub-menus across the top:
 - a. Overview: Provides general information about the PSP. Here, teachers can also create their own Personal Success Plan.
 - b. Subject Area Starters: A breakdown by subject, this provides tips and ideas for creating a PSP focusing on certain areas.
 - c. Quickstart: Guides students through the PSP process.
 - d. PowerPoint Introduction to the PSP: A slideshow that may be used to introduce students to the PSP concept.
 - e. School Action Planner: This planning tool provides schools with various topics to discuss prior to implementing a PSP program.

Sites Visited

- 1. On the Toolbox tab, click Sites Visited.
- 2. From the drop-down menu, select a date range to narrow the list.
- 3. Options:
 - Add to Favorites to add an activity to your Renzulli Favorites List.
 - Share with Students/Teachers to share an activity.
- 4. Add to Assignment/Project to add an activity to an existing or newly created Assignment or Project.

Submit Resources

Have a good website to share or looking for particular content?

- 1. On the Toolbox tab, select Submit Resources, then click Submit a Resource.
- 2. Enter the Title of the page, copy and paste the URL, then add a brief description and what you like about the resource. Alternatively, tell us what content you'd like us to build up for you!
- 3. Click Submit. Thank you for helping us build up the Enrichment Database!

REPORTS TAB

Run Reports to analyze the data gathered from Student Renzulli Profiles. You can Print and Export Reports as spreadsheets.

- 1. Click Reports.
- 2. Select One by Grade Level/School or by Groups.
- 3. Select a Report as listed in the drop-down menu:
- 4. Report criteria will display, depending on the choice in the drop-down menu. Complete all sections and click *Submit*.
- 5. The Report data appears on the next screen, where you can Print or Export to Excel.

Teacher Tip: Selecting Students by Common Interest Areas, Learning Style, Expression Style, or by Any Combination will also offer the option to build a Group based on data on the final screen.

HELP TAB

This section houses practical support for teachers using the Renzulli Learning Platform. Including, conceptual resources for the teacher who is attempting to differentiate instruction, including Professional Development information, SEM-R information, and videos about Renzulli.
